DETAILED ACTION

Response to Arguments

Applicant's arguments filed 5/12/05 have been fully considered but they are not persuasive.

Applicant argued that there is no teaching or suggestion in Verthein that the computing card 24 is configured to send received network address information to a plurality of host processor cards via a bus. The argument is not persuasive. As admitted by applicant in the background disclosure, it is known in the art to manually assign IP to host processing cards. This is a conventional configuration procedure. The admitted prior art system uses RS-323 interface as the interface to configure these host processing cards. Verthein teaches an improved method for network management by providing a computing card in direct communication with the internal chassis bus for carrying out management function [see col.2 lines 55-60]. Hence, it is clear from Verthein teaching that configuration information is transmitted to cards in the chassis via the internal chassis bus (see col.3 lines 1-7 and 9-14). Given the teaching of Verthein, it clearly would have been obvious to use Verthein computing card to manage a chassis containing host processing cards such as that of the admitted prior art system. Since part of the management of the host processing cards is the manual assignment

of IP addresses, it is apparent that IP addresses assignment input by the administrator would be transmitted from the Verthein computing card to the processing cards via the chassis internal bus.

The claims remain rejected under 35 U.S.C 103(a) as stated in the prior office action.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
